SUSTAINABLE TERRITORIES

INTEGRATED MANAGEMENT IN AMAZONIA

PRESENTATION

The *Programa Territórios Sustentáveis* (Sustainable Territories Program) believes that it is possible to ensure that the people in the Amazonian region have fair development conditions and opportunities for a better life, respecting the features of each community. Nowadays, the Program acts in the Amazonian region in the Western Pará state, known as Calha Norte. Oriximiná, Terra Santa, and Faro municipalities deal with growing economic, social, and political inequality situations and a scenario of complex interactions. In such context, three social organizations - Imazon, Ecam, and Agenda Pública - have been united to think about integrated strategies that could collaborate with the sustainable territorial development, reinforcing the local populations and the public authority of the municipalities. By acting systemically, it is expected to contribute with the reduction in the region's economic dependence referring to the bauxite mining activities in medium term. *Programa Territórios Sustentáveis* acts in an integrated manner in five axes: Public Management, Social Capital, *Quilombola*, Economic Development, and Environment. These axes were identified as a priority based on the diagnoses performed in the territory and guide the work of the three organizations for the next 15 years. The Program was built as a model that can be implemented in several territories in Amazonia that face similar challenges.

LIABILITIES OF THE FIVE AXES:

Support to the municipal public management by creating collaborative arrangements that contribute to the implantation of more efficient public policies, so increasing the population access to quality public services

Support to the communities and leaders in their organizations, intending to improve their participation in council meetings and conferences. The objective is to help the population to enforce its rights and duties

Support to the economy development and improvement by developed production chains (such as Brazilian nuts, copaiba, fishery, furniture manufacturing, timber, animal husbandry, agriculture, tourism) and potentials in each municipality, considering the conservation of protected areas and the preservation of traditional cultures

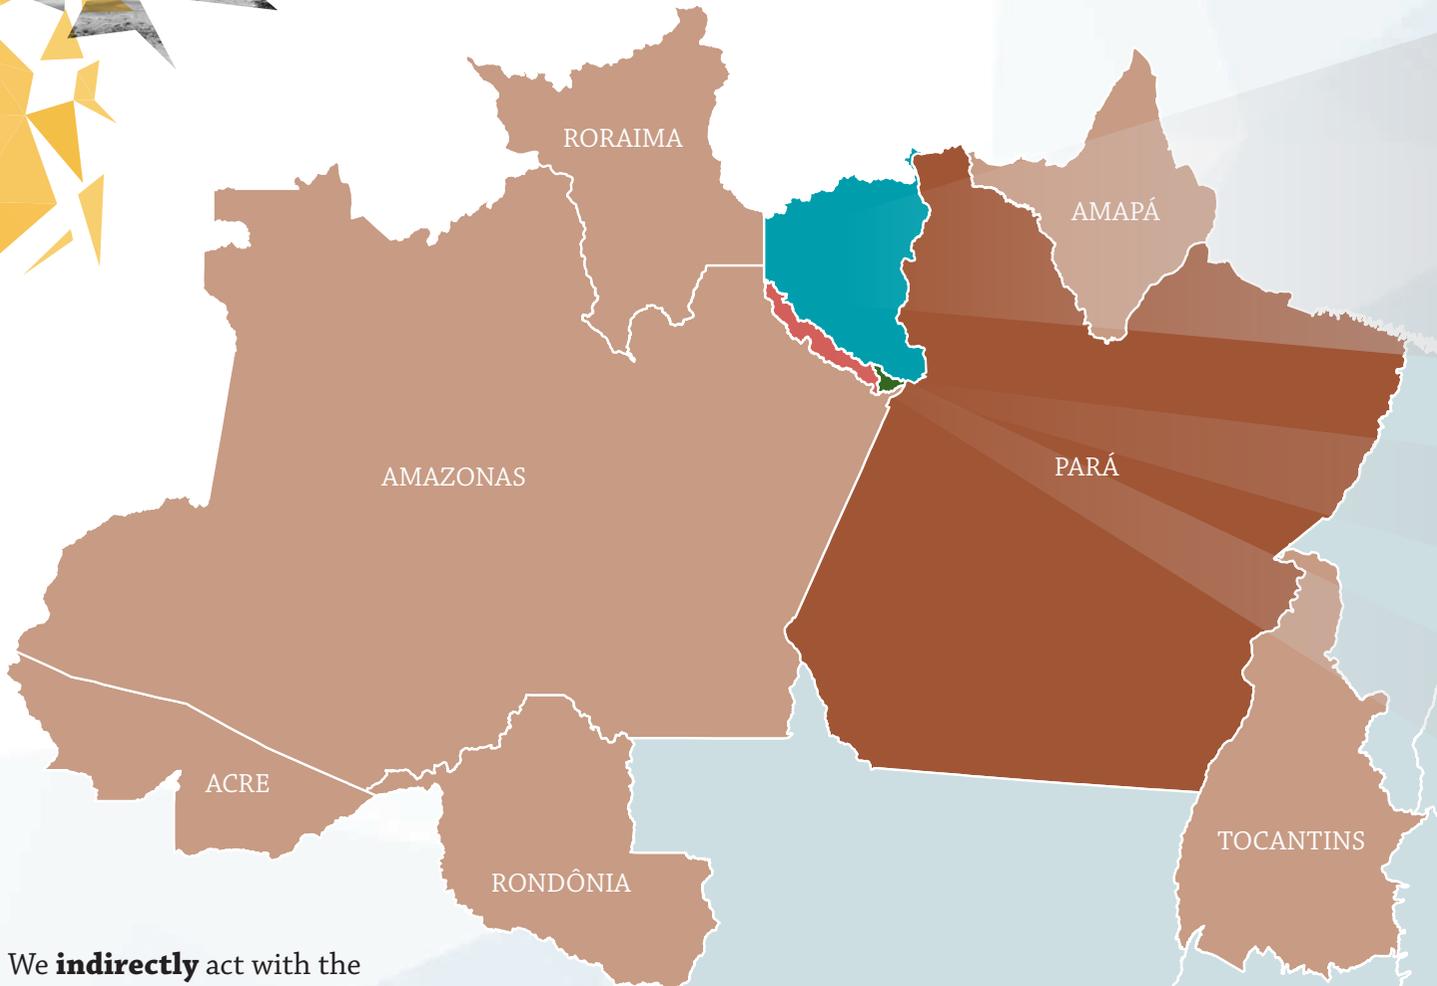

Direct support to the environment secretariats in order to ensure conservation, licenses for new activities in the municipalities, and the Rural Environmental Register (CAR)

Support to the *Quilombola* communities in their organization. The objective is to reinforce their organizations, governance, and communitarian management, so promoting planning workshops, training, meetings, and reunions that enhance the acting of their organizations in the process of relationship with other actors in the region and in their communitarian planning.

WHERE WE ACT

We **indirectly** act with the population of Oriximiná, Faro, and Terra Santa, totaling

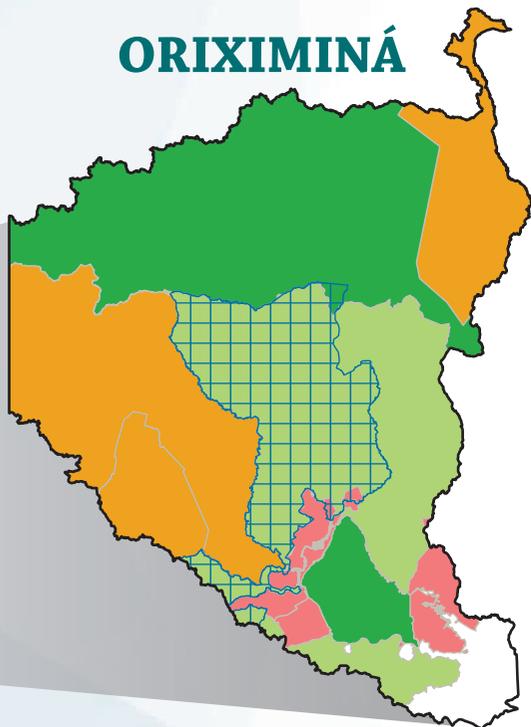

96,344 inhabitants.

We **directly** act with:

- **public managers and civil servants;**
- **municipal counselors;**
- **associations and other popular participation spaces;**
- **Quilombola communities;**
- **riparian communities; and**
- **economic agents** (farmers, extractivists, livestock farmers, entrepreneurs, among others).

ORIXIMINÁ

TERRITORY:
107,603 km²

POPULATION:
71,078
inhabitants

General Legend

- Municipal limit
- Katxuyana-Tunayana TI in creation
- Full protection UC
- Sustainable use UC
- Indigenous land
- Quilombola territory

TERRA SANTA

TERRITORY:
1,896 km²

POPULATION:
18,257
inhabitants

FARO

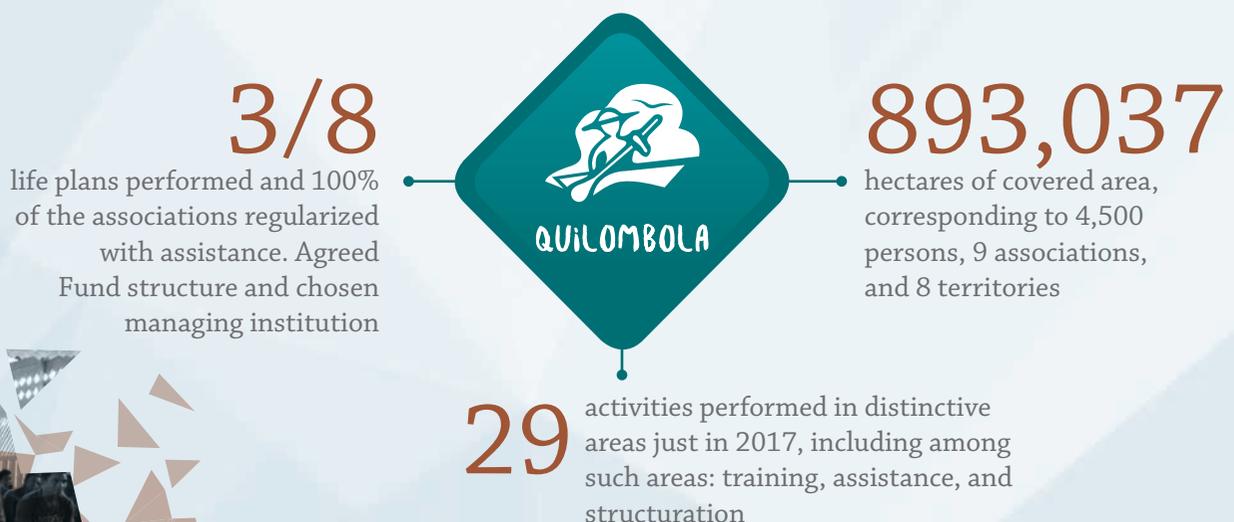

TERRITORY:
11,770 km²

POPULATION:
7,009
inhabitants

BIG NUMBERS

RESULTS

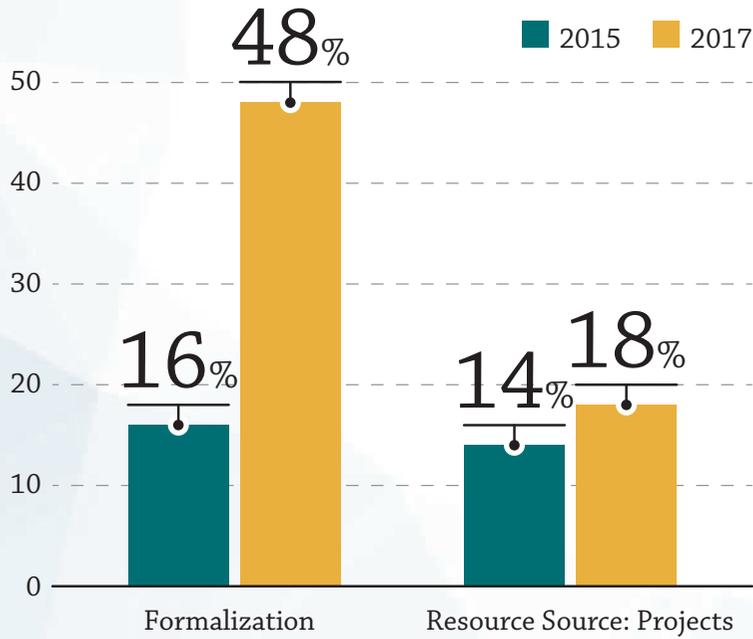

The measurement of the social capital axis interviewed 112 entities and councils by the end of 2017 and beginning of 2018, representing a public of more than 20 thousand persons in the three municipalities.

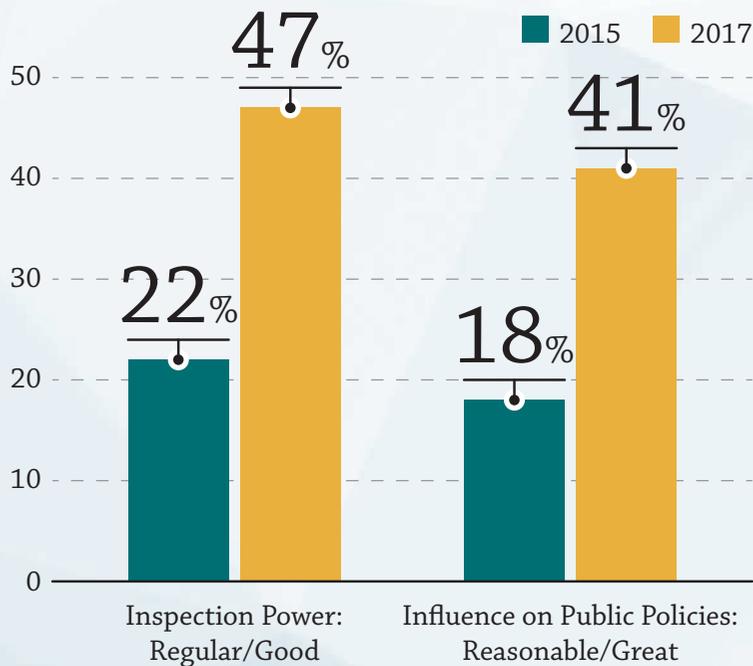

Among the 16 goals, 13 were achieved, 2 present results below what was expected, and 1 could not be measured (it needs to be reviewed), as it can be seen in the table.

	2015 LB	2017 Goal	2017 Measured
The associations have transparent mechanisms and strategies to publicize financial reports	2%	15%	41%
The associations have a strategical plan	0%	15%	47%
Councils with regular and high inspection power	22%	25%	47%
The associations have high female participation	41%	45%	61%
Associations with updated registered statutes with bylaws	8%	20%	33%
% of participations by rural communities	0%	15%	28%
% of associations that participate in the Councils	40%	45%	56%
Participations of youngsters in the Councils	0%	10%	17%
% of associations with a main resource source: non-repayable projects	14%	15%	18%
Associations with opened accounts working	30%	35%	36%
Associations with regular documentation	54%	60%	60%
Participation of youngsters in the Director Board	-	20%	20%
Associations with approved and ongoing projects	2%	5%	5%
Power of inspection of public policies	5%	25%	22%
The municipal councils play a great influence on the public policies	17%	20%	19%
Associations with 70% of partners up to date	10%	20%	Not measured

REINFORCEMENT OF ASSOCIATIONS

REINFORCEMENT OF COUNCILS

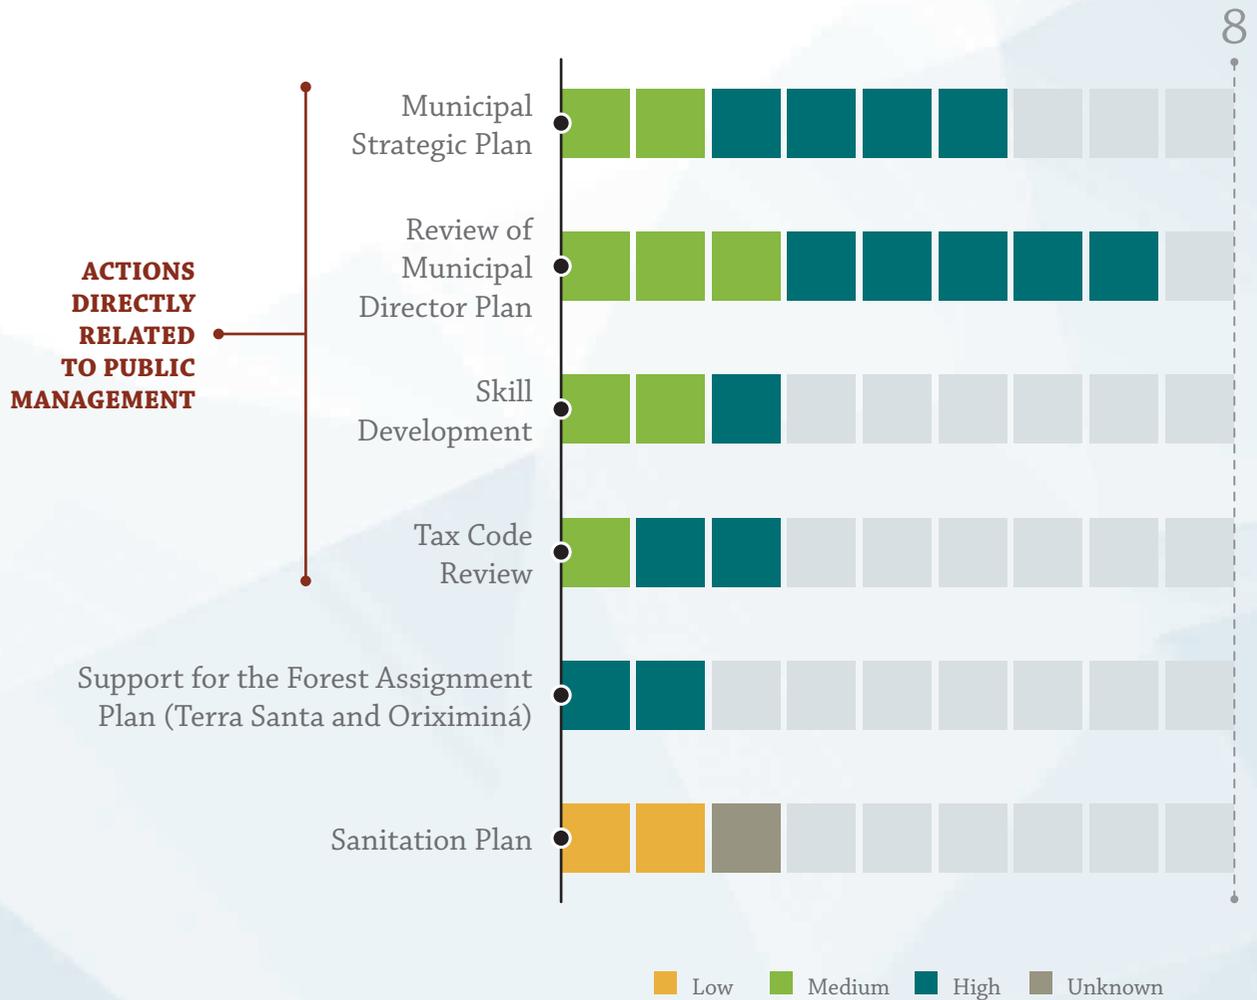

RESULTS

PERCEPTIONS OF THE LOCAL ACTORS ABOUT THE CONTRIBUTIONS OF THE PTS ACTIONS TO IMPROVE THE MUNICIPAL PUBLIC MANAGEMENT

MUNICIPAL DIRECTOR PLANS

- **3** director **plans** reviewed in the term stipulated by the Pará State Government.
- Participation of **450** leaders in Oriximiná and **250** leaders in Faro.
- Visits to more than **10** riparian communities to collect subsidies for the plans.
- **Oriximiná** is the first municipality in Western Pará state to

SKILL DEVELOPMENT

- Holding of the **Regional Meeting of Municipal Councils on Child and Teenager Rights**, with 58 participants and 16 hours of experience exchange with the counselors.
- Technical meeting to assess the process of **Review of the Director Plan of Oriximiná**, with 45 participants.
- Technical meetings with 3 nationally renowned specialists to support the municipalities in **building the municipal sanitation plans**. Specialized technical support/180 hours of information collection in the field for the Diagnosis for Sanitation Plans.
- **Lectures** about improvement in public services for managers, public administration technicians, and social leaders, with participation of 70 persons.
- **Forty hours of Training in Public Tender and Procurement** - structured from the local demands - for the bidding commissions of Oriximiná, Terra Santa, and Faro.
- **Twenty-four hours of Training in Tax Management** for the team of the Treasury Secretariat of Terra Santa.

TAX CODE REVIEW - ORIXIMINÁ

- **7** months of permanent technical support to the teams of Oriximiná city government.
- **3** meetings with representatives from the City Council, in order to present and validate the alterations in the Code, so ensuring the law approval in a record time.
- **80** hours of consultancy on Tax Law hired by PTS.
- **Monthly presence** of a PTS technician in work meetings with the local civil servants.
- **Prediction of 11%** of increase in the municipal tax revenues once the new Code is implanted.

STRATEGICAL PLANNING

- **Two** municipal Strategical Plannings elaborated in 2017, with participation of 100% of the government secretaries.
- Elaboration of **roadmaps** with a future vision for 2030.
- **Four** priority subjects for the government and respective priority projects defined for each area (health, education, social assistance...), supporting the planning of public policies.
- Such elaboration enables the *Programa Territórios Sustentáveis* to set a joint planning with the persons involved in their activities and a “collective doing”, which starts in the conception.

RESULTS

ECONOMIC DEVELOPMENT

ANIMAL HUSBANDRY

- Diagnosis of animal husbandry in Oriximiná
- Exchange of livestock farmers with Paragominas
- 14 farms implementing - Sustainable Animal Husbandry - 10 thousand hectares

COMMUNITY-BASED TOURISM

- 2 pilots of community-based tourism - Português (Faro) and Tapagem (Oriximiná)
- Building of the Communitarian Center in Faro
- Plan of Public Use of the Fleet of Faro
- Municipal Tourism Plan for Oriximiná
- Training in community-based tourism - 70 guides
- Training: good practices in food handling; amateur skipper; trail guides; first aid and survival in the forest
- Implementation of meliponiculture - 30 boxes
- Exchange of communitarians with Resex Tapajós Arapiuns
- 80 tourists visited the Português community (Faro) - R\$ 25 thousand directly to the community
- Initiative presentation in the IX Brazilian Congress of Conservation Units

NON-TIMBER

- Business plan for the Brazilian nut in Cachoeira Porteira
- Copaiba inventory in Faro
- Good practices in the copaiba extraction in Faro
- Register and technical support with *Origens Brasil*

FORESTAL ASSIGNMENT

- 33 plans for using the social benefit of forestal assignment elaborated in Oriximiná
- 1 plan for using the social benefit of forestal assignment elaborated in Faro
- 3 plans for using royalties of forestal assignment elaborated for Faro, Oriximiná, and Terra Santa - Faro received R\$ 674,487.82

FURNITURE MANUFACTURING

- Diagnosis of the furniture manufacturing sector
- Furniture manufacturing district adequate for the zoning in the Director Plan - Terra Santa and Oriximiná
- Training in furniture manufacturing licensing

FAMILIAR AGRICULTURE

- Diagnosis of the demand for familiar agriculture in Porto Trombetas
- Diagnosis to purchase school lunch
- Implementation of pilots in Agroforestral Systems

ENVIRONMENTAL MANAGEMENT

REINFORCEMENT OF ENVIRONMENTAL MUNICIPAL SECRETARIATS

- 30 environmental technicians trained in CAR, LAR, and Geoprocessing of 9 municipalities in Calha Norte
- Initiative of creating a partnership of environmental municipal secretariats in Calha Norte

PROGRAMA MUNICÍPIOS VERDES/ SUSTENTÁVEIS (GREEN/SUSTAINABLE MUNICIPALITIES PROGRAM)

- Support for participation of secretaries in the PMV Committee
- Support for reception of vehicles and equipment from the PMV - Faro and Oriximiná
- Elaboration of the Rural Environmental Register and training of technicians to elaborate CAR

ENVIRONMENTAL MUNICIPAL COUNCILS

- Creation of environmental municipal council and fund in Terra Santa
- Training of 38 counselors: Council Function; Forestal Assignment; Protected Areas; Green ICMS

SANITATION

- Elaboration of diagnoses and workshops for the Municipal Sanitation Plan of Oriximiná, Faro, and Terra Santa

COMMUNITARIAN ENVIRONMENTAL AGENTS

- 59 accredited Communitarian Environmental Agents: 26 in Faro; 33 in Oriximiná
- Work plans under elaboration

CAR

Result	Indicator	2017 Goal	LB	2017 Result
CAR higher than 80%	% CAR	70%	Faro 50,76%	Faro 81,14%
			Terra Santa 49,92%	Terra Santa 56,01%
			Oriximiná 55,47%	Oriximiná 69,62%

Monthly deforestation monitoring

ACCOUNTABILITY

• Social Capital

There were a total of **36** activities, totaling a value of **859,411.56** reais in 2017.

• Quilombola

There were a total of **29** activities, totaling a value of **769,467.02** reais in 2017.

SUSTAINABLE DEVELOPMENT GOALS

- Start of **PTS**: agreements and diagnoses
- Launch of **SDG**

- **PTS**: Implementation of agendas and periodical evaluation and monitoring
- **SDG**: 17 Sustainable Development Goals (SDG) and their 169 objectives, as well as a section about implementation means and global partnerships, besides a schedule for follow-up and review

- **PTS**: Integrated territorial management, and diversified economy with effective social participation
- **SDG**: These goals are integrated and indivisible, and blend the three sustainable development dimensions in a balanced manner: economic, social, and environmental ones. These goals must be achieved until 2030

An integrated management strategy, reuniting a territorial, inclusive, and sustainable development and the interests of the private sector and considering the preservation of traditional cultures and environmental conservation. A management model that can be reproduced in other Amazonian regions.

QUILOMBOLA FUND

Structure

Steps

Study on the management plan and financial mechanisms, comparative analysis of the existing funds

January to April:

Meetings to present the *Quilombola* life plan and fund. Definition of the governance model together with the communities

May to July:

Meetings and previous consent signing in the territories

July to November:

Negotiations with 3 possible managing institutions: Sitawi, Funbio, and Funtec

December and January:

Presentation of the institutions to the leaders

March:

Choice of the managing institution by the communities - FUNTEC

Next steps

Device implantation and community formation

Quilombola fund working with pilot projects supported by USAID

Meeting between FUNTEC and communities to elaborate the handbook for the *Quilombola* fund

TESTIMONIES

In Faro, the Director Plan was reviewed together with the *Programa Territórios Sustentáveis*, in an easy process. If PTS had not participated, we would have difficulty in starting.

**Gilson da Costa
Guimarães**

*Secretary of Urbanism and
Environment of Faro*

In my opinion, PTS had prime significance, as its knowledge collaborated to develop the municipality. Furthermore, by its youth, it provided a dialogue on relevant subjects, improving the municipal public life. The greatest positive impact PTS has caused was aiding in the work on the municipal Director Plan, which has even been implemented. Now, it is already being spread in the Municipal City Council group.

Antônio Lourenço

Municipal City Council of Terra Santa

For us, the *Quilombolas*, the projects and the program that enables to contribute for our development and knowledge have prime significance for our development in the society. The internship program enables us to obtain more knowledge and practical experiences, besides showing the reality of the *Quilombolas*, and then better understanding their territories, culture, and, mainly, everyday routine. Therefore, it is very important to use the opportunities for growth and development provided during the internship program, as they provide a new view for the *Quilombola* communities, which now know which are their rights, duties, needs, and commitment with society. With such information, they can help youngsters that need to study, providing a more deserving life for their families.

Gabriela Cardoso Almeida

Intern in ARQMO

In my opinion, PTS is a right hand that is always there, supporting us and providing ideas and new knowledge that can help us a lot to build a better life in the future. For me, this is a huge privilege as, by PTS, we already perform wonderful works, such as ODK and Google Earth. All such works were excellent experiences, which can consequently benefit use in some way. Therefore, I would like to thank all the involved persons and to say that I am verily thankful by having PTS by our side in this fight in search of a better future!

Caroline Colé

Young participant in the initiatives with technology

We could know the associations and leaders and then learn more about what is the functions of each of them. Furthermore, the courses will benefit many people, as we can take their content to our everyday routine. By the Pastoral Counseling, we might help other youngsters with such knowledge. We might publicize our actions and sign partnerships with the associations to help us in the publicity.

By PTS, we had access to a series of communication workshops where we could use many things from. We were able to learn how to elaborate a plot and a good video, and we will take such information and bring to our everyday routine and to the Youth Pastoral Counseling.

Jônia e Egner
